IBCI  25 March 2015
Building Control Reform Programme

Aidan O’Connor
Principal Adviser
Architecture / Building Standards
Housing Division, DECLG
Overview of Presentation

- Key Achievements in 2014
- Priorities for 2015
- Review of SI No. 9 of 2014
Key achievements in 2014
<table>
<thead>
<tr>
<th>Key Deliverables</th>
<th>Outputs / Outcomes</th>
</tr>
</thead>
</table>
| S.I. 9 / 2014 effective from 1 March 2014             | • Statutory Certificates of compliance  
• Lodgement of Compliance Documents  
• Inspection Plans  
• E-Administration  
• Unified Statutory Register  
• Better oversight by Industry & BCAs  
• 6,000 valid commencements to date under new arrangements |
| C.O.P. for Inspecting & Certifying Buildings & Works | Statutory clarity of roles, responsibilities & administrative requirements         |
| Building Control Management System (BCMS)            | • Efficiency  
• Capturing intelligence on projects & for future policy development  
• Enhancing Consistency |
<table>

<tr>
<th>Key Deliverables</th>
<th>Outputs / Outcomes</th>
</tr>
</thead>
</table>
| **Common Framework for Building Control Authorities** | • Adopted by CCMA in July 2014  
• Standardised guide to BC administration  
• Standard inspection approach & template reports  
• Other responsibilities - Construction Products Regulations, market surveillance, EPBD/BER. |
| **Guidance and Support** | • FAQs  
• Information Note on self-build (Feb 2014)  
• Clarification on LA exemption  
• Clarification on extensions (40 sq. m)  
• Ongoing support to BCAs, industry & public on specific projects |
| **SI 105/2014** | • Oversight group appointed by Minister  
• Alternative approach to assigned certifier agreed for 23 education projects  
• Statutory time limit expired 1 March 15 |
<table>
<thead>

<th>Key Deliverables</th>
<th>Outputs / Outcomes</th>
</tr>
</thead>
</table>
| Registration of Contractors                         | • CIRI established on voluntary basis  
• Over 500 firms now on register  
• Over 800 applicants at various stages                                                                 |
| Registration of practically trained Architects       | • Key recommendations of Fennell report implemented  
• Engagement with AAoI to identify further reforms                                                                                   |
| Ongoing Review of Building Regulations & Technical Guidance Documents | • Part E (Sound) - SI 106/14 dated 22 Dec 14  
• Part J (Heat Producing Appliances) - SI 133/14 dated 14 March 14  
• Part K (Ladders, ramps etc.) - SI 180/14 dated 14 April 14  
• Reviews of Parts B (Fire Safety) & L (Energy – Non-Dwellings) well advanced.                                                          |
Priorities for 2015
Building Control reforms are central to Government policy

</table>
| Broadening the pool of registered construction professionals | • Identify & legislate for alternative to technical assessment process (Architects)  
• Further implementation of Fennell report recommendations.  
• QQI definition of national standard for architectural technologists by Q3 2015  
• Professional recognition of Architectural Technologists |
| Ongoing Review of Building Regulations & Technical Guidance Documents | • Review of Part C TGD C (Site Preparation)  
• Review of TGD H (Drainage) to reflect NSAI’s special recommendations  
• Part B / TGD B (Fire Safety) – Public Consultation Q2 2015.  
• Part L (Energy – Non-Dwellings) – Public consultation Q4 2015. |
Review of S.I. 9/2015
Commitment given to stakeholders to review SI 9/2014 after 12 months

This is 4\textsuperscript{th} review of new regulatory model following:-
- Industry Stakeholder submissions (pre 2012)
- Public Consultation (April/May 2012)
- SI 80/2013 reviewed & replaced by SI 9/2014

Continuing positive engagement with stakeholders:
- CCMA / local authority management and BCO
- The professional bodies: RIAI, ACEI, EI, SCSI
- The construction industry: CIF, IHBA & Others
- OPW / GCCC, Government Departments / Agencies
Scope

- Review the operation of S.I. No. 9 of 2014 in consultation with industry and local authority stakeholders
- Consider impact on single dwellings and domestic extensions to address concerns relating to this sector
- General impact on owners, occupiers and users of buildings have regard to purpose of building regulations i.e. public safety, accessibility, energy efficiency, efficient use of resources and good building practice
- Report with recommendations that will further strengthen and improve the arrangements in place for the control of building activity in keeping with the principles of good and fair administration
Current Context

SI 9/2014 operational from 1 March 2014
6,000 approved commencement notices
1,000 invalidated notices
552 valid certificates of completion
111,000 documents filed on BCMS
✓ BCMS great resource for informing BC interventions
✓ Plenty of evidence-based information for review

NB – BCO views/feedback are crucial here
Key Questions

- Does Building Control framework support responsible operators / activity?
- Does it protect consumers?
- Is it based on sound principles of administration (Fairness, transparency, consistency, etc.)?
- How well does it integrate with other systems (Planning, Banking, Conveyancing, industry in general)?
- How well does the system support itself?
Key Focus

- Support owners, builders & professionals
- Support people & systems (BCAs, Fire Authorities & BCMS)
- Common approaches and consistency
Conclusion

1) Effective Building Control System is central to Government policy driving our economic and social recovery

2) Strengthening the system is critical to restoring reputation of construction sector

3) Consumer needs for quality and reliability must be balanced against industry need for efficiency

4) Public sector and industry have shared responsibility to support system that delivers for consumers

..... the work continues
Thank You
